Community/Developer Workshop

The Federation of Calgary Communities is partnering with Calgary Region Home Builders Association to host an Introduction to the Developer's Perspective workshop. The goal of this workshop is to provide a venue for community members interested in the planning process and development industry representatives to learn from each other in order to build a more collaborative relationship.

The workshop will allow the development industry to share their perspective, primarily regarding development finance, with community members so that they can gain a better understanding of the financial constraints involved in development projects. Case studies will be presented that demonstrate the development management process as well as the financial implications of lengthy delays in the approval process and rising costs of construction and labor in Calgary's booming economy.

You are welcome to attend this workshop on **Monday June 5th, 2006 from 7:30 – 9:30 PM. Registration and Beltline demonstration starting 7:00. It will take place at the Hotel Arts at 119 12th Ave. SW.**

Light food and beverages will be provided and the workshop can be used as a credit for an elective course in the Partners In Planning program. Please contact the Federation Of Calgary Communities at 244-4111 or email: registration@calgarycommunities.com by June 1st to reserve your spot.
